

MAKE YOUR OWN KALEIDOSCOPE

MATERIALS

- ☆ Paper Towel or toilet paper roll
- ☆ Mylar sheets or mirror
- ☆ Scissors
- ☆ Tape
- ☆ White card Stock
- ☆ Bendy straws
- ☆ Markers, colored pencils, crayons or stickers

INSTRUCTIONS

Step 1: Cut & Fold Mirror Board

Cut the mirror sheet so you can tri-fold it and place it inside the toilet paper roll. Remember to fold it so the mirror side is facing inward.

Step 2: Slide Mirror Board Into Cardboard Roll

Step 3: Decorate the Cardboard Roll

Masking tape or markers work well!

Step 4: Cut & Attach the Straw

Cut the straw right near the bendy part. Then tape the straw to the side of the cardboard roll.

Step 5: Cut The Card Stock Paper Into a Circle & Decorate

Cut a circle that is roughly 3.75 inches in diameter. Then decorate the circle by drawing shapes, using stickers, patterns, or any other kind of design that will reflect well.

Step 6: Attach Cut-Out Circle to the Bendy Part of the Straw

Step 7: Look Through Your Kaleidoscope

Point your kaleidoscope towards light and spin the card stock circle. Enjoy!
